Custom LASER & WATERJET CUTTING for Architectural Construction

RESIDENTIAL

- Highly Customizable- Brackets, Plates & Gussets
- Simple, yet elegant way to join Trusses & Beams
- Simple T-Joints- Or whatever shape & size you like
 - Ornate or Square Edges & Corners
 - Bent Brackets
 - Flat Plates & Gussets
 - Can be shipped with or without Coating

COMPLEX ENGINEERED TRUSSES

- Hidden or Visible Plates
- Multi-Beam Junctions with a Single Bracket
- Laser-Cut Assembly Templates
 - For ease of hole-alignment and assembly
 - Can also be used for cutting lumber to size

CUSTOMIZABLE RAILINGS and RAILING INSERTS

- Can be constructed using Tube Steel, Flat Stock, Square-Bar and Round-Bar Stock
- A photo or drawing can be made into a laser-cut design
- We can transform your drawings into digital CAD-Files for you

SERVICES & EQUIPMENT

At Laser Precision Cutting, we use Swiss-made, high-performance Bystronic® Cutting systems. Our Laser Cutting and Waterjet Cutting are complementary technologies—each with its own advantages. We listen and will always select the very best tool for your materials and specific project requirements.

LASER CUTTING SERVICES

With LPC's Laser Cutting Services, you can quickly & economically realize smooth curves, edges or intricate designs for your custom parts. Our high performance lasers leave a precise edge with a high quality surface finish and cut through materials up to 1/2-inch thick.

- Bystronic® CNC 2800-watt Laser with 5 ft by 10 ft table
- Two Bystronic® CNC 1500-watt Lasers with 4 ft by 8 ft tables

WATERJET CUTTING SERVICES

Our Waterjet Cutting services cut through materials up to 4-inches thick. With no heat-affected zone, our abrasive Waterjet Cutting process is capable of cutting a variety of materials without harming or changing the material's intrinsic properties.

- Bystronic® Waterjet with 5 ft by 10 ft table

SECONDARY OPERATIONS

Bending, plating, welding (MIG/TIG and Spot) and other secondary operations—All to your exact specifications.

- 10 ft, 135-ton Niagara Press Brake with CNC Back Gauge

WE CAN ALSO TRANSFORM YOUR DRAWINGS into DIGITAL CAD-FILES for YOU!
